

DSE8005

SCADA SUITE SOFTWARE

FEATURES

The DSE8005 SCADA Suite software for Windows™ PC enables remote control and monitoring of DSE load share systems comprising of DSE8600 Series and DSE8700 Series modules.

The DSE8005 will monitor up to a maximum of 40 DSE controllers in any combination of up to 32 generators and 10 mains (utilities) e.g. 32 generators and 8 mains (utilities), 30 generators and 10 mains (utilities) etc. For more information please refer to the DSE8600 Series or DSE8700 Series manuals.

Modules are linked via a high-speed connection in a 'daisy-chain' topology.

Compatible with Windows™ 7, XP and Vista, the software can be easily installed into any laptop or PC, allowing full remote control and monitoring facilities. The Windows based software is user-friendly.

FULL ON-SCREEN FUNCTIONALITY

- Touchscreen PC enabled
